

SUNFLOWER GLIDERPORT

Est. 1976

Camping

Sunflower Gliderport has 8 recreational vehicle camping spots in the east campground area that can be reserved. Unless you have a reservation, it's first come, first serve. Payment for your stay is due on arrival. We also have another 4 spots (with 20/30/50 electric and water) by the hangars for overflow.

Electrical: The electrical is on the poles in the grass. Each pole has a 30amp and a 50amp outlet. Additionally, each pole also has a pair of 110v outlets.

Water: Is shared from a single source. The water to this hydrant is supplied by a new 1" Pex line from public source and has a high flow rate. Connection is via shared manifolds. Bring a long water hose with you, lengths are shown below in white and distance varies between 39ft and over 70ft (approximately). The water line was installed new sometime around 2014.

Sewer: There are a couple of sanitary dump locations on site. During contests, you will be shown where they are. Otherwise, please contact us or use dump facilities at Loves truck stop in South Hutchinson (8 miles away).

Tent Camping and use of bathhouse - Free

20amp - \$10/night

30amp - \$15/night

50amp - \$25/night
